PROFESSIONAL SUMMARY

Motivated and detail-oriented Full-Stack Developer with a strong foundation in the React ecosystem. Proven ability to build responsive, user-centric web applications and integrate third-party services like Paystack, Monify and Firebase. Passionate about open-source contribution and solving real-world problems through clean, maintainable code. Seeking a competitive fellowship or entry-level role to leverage fast-learning abilities and contribute to high-impact engineering teams.

TECHNICAL SKILLS

- **Frontend Development:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS.
- **Backend & Cloud:** Firebase (Auth, Firestore, Hosting), REST API Integration.
- **Tools & Workflow:** Git, GitHub, VS Code, Postman, Netlify.
- **Design & UI:** Responsive Web Design, Mobile-First Approach, Figma/Lunacy (Design-to-Code).

FEATURED PROJECT EXPERIENCE

PayHaus – Rent Management Platform | React, Firebase, Tailwind CSS

Live Link: [Payhaus](#)

- Built a property management solution that simplifies rent tracking and tenant management for landlords.
- Implemented secure authentication and real-time database functionality using Firebase.
- Designed an interactive dashboard for monitoring tenants, rental records, and payment status from a centralized interface.

Glory Bakery – Luxury E-Commerce & Academy Frontend | React, Tailwind CSS

Live Link: [Glory Bakery](#)

- Engineered a high-end digital storefront for an artisanal bakery, focusing on advanced responsive layouts and optimized user conversion pathways.
- Asymmetric Editorial Gallery. Built a fluid masonry grid using Tailwind CSS custom grid spans, allowing multi-aspect ratio images to scale seamlessly across all devices without layout shifts.
- Designed a high-performance UI using Tailwind CSS, ensuring sub-second load times and

mobile compatibility.

Clever Kids School Portal | React, Firebase, CSS Modules

Live Link: [Clever Schools](#)

1. Collaborated in a developer pair to build a multi-page institutional website, utilizing Git for version control and conflict resolution.
2. Structured reusable React components for the Events, News, and Gallery sections to maintain code modularity.
3. Optimized assets and code structure, achieving high Lighthouse performance scores for accessibility and SEO.

RELEVANT EXPERIENCE

Software Development Trainee | RAD5 Tech Hub

Aba, Nigeria | 2025

1. Completed an intensive, project-based bootcamp focused on modern web technologies and software engineering best practices.
2. Participated in daily stand-ups and code reviews, learning to read, debug, and refactor code written by peers.
3. Translated UI/UX designs from Lunacy into pixel-perfect frontend code.
4. Gained hands-on experience with Firebase Authentication and database management for full-stack functionality.

Python

EDUCATION

West African Senior School Certificate (WASSCE)

Graduated: 2025

Focus: Computer Studies, Mathematics, Data Processing.
