PROFESSIONAL SUMMARY

Full-Stack Developer with strong proficiency in **Frontend** (React, JavaScript, Tailwind CSS) and solid **Backend** capabilities (Python, Django, REST APIs, Firebase). Passionate about building scalable web applications, designing user-friendly interfaces, and solving real-world problems. Currently building products across education and security tech while actively documenting the engineering journey through technical content.

TECHNICAL SKILLS

- Backend: Python, Django, Django REST Framework, SQLite, PostgreSQL (Learning)
- Frontend: React, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- Database: SQL, Firebase, Firestore
- Tools & Platforms: Git, GitHub, Postman, VS Code, Figma, Lunacy

FEATURED PROJECTS

StyleHub Fashion Store

React • Tailwind CSS

- Built a responsive fashion storefront with clean UI components.
- Implemented an Order Code Tracking System allowing customers to track purchases seamlessly without creating accounts.
- Optimized mobile responsiveness across diverse viewports.

Live @ [Style Hub](#)

Clever Kids School Site

HTML • Bootstrap

- Collaborated in a developer pair to build a multi-page institutional website, utilizing Git for version control and conflict resolution.
- Structured reusable React components for the Events, News, and Gallery sections to maintain code modularity.
- Optimized assets and code structure, achieving high Lighthouse performance scores

for accessibility and SEO.

Live @[Clever Kids School International](#)

Kilishi Brand Website

React • Tailwind CSS

- Developed a modern, responsive marketing website for a consumer brand.
- Built reusable UI components and optimized site load performance and user experience.

Live @[Essy Kilishi](#)

Cybersecurity Firm Website

React • TailwindCSS • NodeJS

- **Collaborated** on building a complete web platform for a cybersecurity firm offering professional services and training programs.
- Integrated an **online enrollment system** and secure **payment gateway** to streamline student registrations and client service payments.
- Developed an **admin dashboard** for managing course offerings, client requests, and transaction logs.

EXPERIENCE

Python Backend Development Trainee | TechRise 3.0

2026 – Present

- Building robust backend applications and REST APIs using Django and Django REST Framework.
- Designing and optimizing relational databases using standard ORM practices.
- Collaborating in agile team environments using Git and standard version control workflows.

Frontend Development Trainee | RAD5 Tech Hub

2025

- Built responsive React applications integrated with Firebase Authentication and Firestore.
- Participated in hands-on, project-based software development modules.

CONTENT CREATION & COMMUNITY

- **Technical Content Creator:** Publish backend and frontend development content across LinkedIn, X, TikTok, and Facebook.
- **Project Demonstrations:** Create voice-over walkthroughs and project demos showcasing software engineering concepts.

EDUCATION

West African Senior School Certificate (WASSCE) 2025
